GROUND RULES and EXPECTATIONS for COSTUME DESIGN PROGRAM PARTICIPATION

In addition to the GROUND RULES for participation in all TYS Workshops, we in Costume Design have a few additional things that are very important to remember (while these don't apply for the VIRTUAL PROGRAM, they are still very important to learn because, someday soon, we will all be together on a stage somewhere!):

CARE & MAINTENANCE

Costumes and Props are expensive and delicate, and take a lot of time and effort to make, so:

- Be very careful/respectful when working with them;
- Always walk slowly and carefully when moving Costumes and Props;
- All Costumes and Props must stay either in the Workroom or in the Theatre;
- Make sure that all Costumes and Props are carefully distributed and returned to their proper place;
- Never eat or drink anything near Costumes or Props
